Since the origin of our establishment, we have had in view, and have strictly adhered to three distinct purposes in our manufactures, viz: Economy in price, Improvement of quality and taste, and the perfecting a STANDARD OF FASHIONS FOR THE UNITED STATES, independent of the European, all of which have been successfully effected, resulting in a most important saving to the com-to ourselves, consequent upon the extensive patronage which we have received.

Our improved FIVE DOLLAR HATS, so superior in

material, elegance of style and perfect finish, that immediately upon their introduction, they became not only preeminent at home, but celebrated in London and Paris, and | per cent.; Long Island 1; Farmers Loan 1. elicited the highest encomiums of the Press there, soon superseded the \$10 Mats previously worn here by the first class of our citizens. This article, now fully established as the highest standard, is so extensively known and universally approved by the fashionable and genteel wearers and true economists, that we will not now allude further to its merits, except to announce that we have improved its beauty and value the present season beyond any that we have heretofore produced.

At the urgest selicitations of many of our customers, who were anxious to economise in the first cost, and yet desirous Alabama is rather better: Mobile 30; other branches, exto avail themselves of the peculiar style and finish characteristic of our fabrics, we have for some time past made diligent efforts to accomplish their wishes, and consequently bave just perfected the new article of Hats as announced above. They will be composed of superior materials, the workmanship will be of the first order, and although felly equal to Hals formerly retailed at \$6 and \$7, they will be sold at \$3,821 each, a price not only commensurate to the present pecuniary depression, and far less than their intrinsic worth, but infinitely cheaper, when the respective qualities are compared, than any which have ever before been offered to the public.

Purchasers are assured, in advance, that these Hats will not incur the objection, viz: " dear at the price," currently argued against most low priced goods. LEARY & CO. Astor House, Sept. 15th, 1342. s19 6tis

Spencer, Hatter.

To the Gentlemen of New York: An advertisement, dated 15th inst., under the name of a house of standing in the hat trade, being evidently to us, (though covertly) simed at the character and prosperity of our establishment, (as being the only one engaged in the sale of the finest quality of Nutria hats at a less price than \$5) demands from us a thorough review of its main posins, and a refutation of its unfair insinuations. The lan guage of said advertisement is-Since the origin of our extablishment we have had in view, and have strictly adhered to, three distinct purposes in our manufacture, viz : Economy in price, improvement of quality and taste, and the pe fecting a standard of Fashions for the United States, inde pendent of the European.

FIRST-" Economy in price." A short reference to the history of that concern will sufficiently shew the claim to be entirely unfounded. The first act of said House, was a raise the price of the muskrat napped hat from \$4 to \$4,25, it having been sold at the first named price by the establishment from which the House now considered emanated. This fact is well known to ourselves and others who were engaged at the time as operatives on the identical article. The next movement was subsequent to the substitution of

the nutria fur, in place of the muskrat, and upon a slight advance in the cost of the former article, (equal possibly to 25 cents per hat,) when said concers immediately raised the price of their article 75 cents per hat, or to \$5. At which high price, yielding targe profit, the article has been main SECOND-" Improvement of quality and taste." We gran

the truth of this position, but in so doing claim for ourselves and a few other makers, equalized and success.

THIRD-" Standard of Fashions for the United States, in ependent of European." Upon this we remark that, whatever may have been the design of the establishment, its practice has not tended to such a result. We remind gentlemen of the fact that the fashion of the Spring of '41 was the model of a hat worn by a distinguished fashionable foreigner, and was by this same house named the D'Orsay style. Again, the fashion of the present season, adopted by the same establishment, our own, and others, is but a sligh modification of the prevailing Paris style. And it is well known that our city fashions of late years, as in our earlier history, have been in most cases but slight variations from European styles.

The next paragraph in the article requires a slight notice We cannot pass it, without remarking that the \$5 Hat spoken of is not, never was, and cannot be made equal in value to the fermer, \$3 to \$10 beaver Hat, as has been too often stated by interested persons. It, however, deserves the popularity which it possesses. We call the attention of "fashionable and gest-el wearers, and true economists," to the fact, that this \$5 article is produced by us, of the finest possible quarity, and in the most elegant style, at \$4 25. We now notice the closing paragraph of the article. After

announcing a new article of Hat, at a low price, the following language is used in relation to it: "It is infinitely sheaper when the respective qualities are compared, than any which have ever been offered to the public." This we most unqualifiedly affirm to be impossible. We have to the past two years been engaged in selling Hats of the first quality and styles, at lower prices than any other house This we have thus far done, and we now positively affirm that we are, by our peculiarly economical system of business enabled to offer Gentlemen's Hats at less prices than with the extravagant system of business pursued by the house in ques tion, IT POSSIBLY CAN DO.

In conclusion we announce, that we shall as soon as ar rangements can be effected, offer to the public, the kind of yet at a very decide I reduction from the price at which i bas been announced. Sept. 19th. 245 Broadway.

Orlando Fish, Fashionable Hatter, 137 Broad way, would inform the gentlemen of New York that his Fall and Winter style of Hats is now ready for their inspec tion and critical judgement. Claiming the distinction o having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of Buropean Fashions in Hats is almost entirely abandoned by the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at

\$3 50, and warrants them equal in material, finish, fashisa and durability to may Hat sold as low as \$4 in the city But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4.50. These be recommended as equal to any hot sold in New-York at \$5 or under, and challenges for them a comparison with any other. Centlemen visiting our city are respectfully invited to

call and examine kis new stock of Winter hats and judge of their quality. He is could 'ent that, whether the cheapest or the best hat is desired, the inquirer will here be satisfied. (#2011) U. FISH, 157 Broadway. Try him.

Of Southong its popularity, produced by the subscriber in a manner altogether superior to any of the kind that has been or is now before the public, and is worthy of notice as possessing all the qualities of a superior bat, as lightness, beauty of finish, permanency of color, and capacity for service.

That the Moleskin Silk Hat possesses the very elements studiously aimed at in the production of a perfect article, it needs only to be stated that the foundation or body is manufactured from the finest description of stock, and the plash or covering of the finest quality silk, than which, it will readily be a imitted, there is nothing of the nature of fabric more durable. To gentlemen who have not given the above hats a trial, it is remarked that they have been for years the most popular, and are now almost exclusively the fashionable Hat of Paris-this, to say the least, is a strong recommendation. To such centlemen as have preference for French manufacture, it is remarked that from the subscriber's observations during a recent visit to the French metropolis, he is enabled to say, that though in one or two particulars the French excel, yet in the main, the article sold by him is superior. The pattern for the fall and winter is at once a model of symmetry and beauty.

FOUR DOLLAR HATS.

The peculiar condition of the monetary affairs of the present time, demanding of the mass of the community the adoption of retrenchment and economy, the subscriber deems it experient, or the time being, to deviate somewhat from the system litherto strictly adhered to in the conduction of his bus ness (that of selling none other than the first quality,) now offers to gentlemen disposed to economise, a \$2 superior hat at the moderate price of Four Dollars. SECOND BOARD. Commercial and Money Matters.

WEDNESDAY, P. M. There was a fair amount of business to-day, but principalsy in Harlem and Long Island. The former declined \$ Of State Stocks, the sales were larger than for some days

past. Prices generally were firm. The following were the transactions:

cept Decatur, 25 a 251.

We learn that several forgeries have been discovered within a few days in Grand-street. The following are the particulars, as far as we have heard them: Messrs, Riqua & Dolton, doing a dry goods business at the upper part of Grand-street failed same time companied with the first control of the first co We learn that several forgeries have been discovered Grand-street, failed some time since, compremised with a 5 56 their creditors by giving security to a certain extent, and went on with the business. The dealers down town were net however, satisfied with the standing of the cancern, and a letter of credit for twenty-five hundred dollars was denosited with one of them, signed by the brother of Riqua. It has been just discovered that this letter of credit wines—Very dull, lurge percels pressing on the maris a forgery, and that of the security given to the creditors, ket by auction. the portion given by Riqua, his brother's name, is also a forgery. Mr. Dolton gave his father as security, and Riqua, being refused by his brotter, forged his name. Rique has abscorded, and, in a letter to his brother, has confessed the forgeries. We also hear of another act of Riqua's, nearly as bad. He borrowed at various times small amounts of money of friend to the extent of one hundred and fifty dellars, leaving him his gold watch as security. One day, however, he came with a story that some friends were in town, before whom he wished to make a good appearance, and begged to have his watch returned to him for a day or two. This was done, and the watch has not been 'going' but 'gone' ver since, much to the dismay of the money-lender.

Minturn, the 'chevalier d'industrie,' has not, we believe vet been discovered. A person who, it is believed, was him, charged some Safety Fund in one or two broker's shops n Broadway last evening. The description is said to tally xactly, and some of the money he offered, it is thought, could be identified. It appears that when Mr. Morrison carried the money to him, he asked him to sit a moment while he went down to Messrs. Grinnell, Minturn & Co.'s for a check. Mr. Morrison sat until he was tired, and Mr. S. S. Minturn had not made it convenient to return at the latest

The Virginia Banks are said to have more specie than before the resumption. A large foreign holder of Pernsylvania State Stock has

offered to receive State Scrip for the interest due. The Apalachicola, at New-Orleans, from Tampico, rought \$127,707 in specie. About \$200,000 had been re-

eived within a few days. The Courier mentions the failure of the large house of J. T. Smith & Co. of Lendon, who were largely engaged in

he trade with the United States. At Baltimore, September 20, the cargoes of the brig FISH-Frances Jane and schooner vigilant were sold at auction, as follows 234 libes. Porto Rico Sugar, 33 withdrawn, at \$5 70 a \$7; 100 bbls. do. do. 6 25 a 6 40. Also, 170 hhds. New-Orleans Sugar at \$5 a 5 90; 300 bags Rlo Coffee, partially damaged, at 7 a 8c; 50 bbls. Sugar-House Molasses at 26 a 27c.

Markets-Carefully reported for The Tribune. ASHES .- The bills in the market to-day are about 250 bbls. The receipts by the river about 300 bbls. of both descriptions. The demand to-day is not quite so active as yesterday, especially for Pearls. The sales of Pots, how, ever, include nearly all offering, say about 175 bbls, at 55c. Of Pearls we hear of sales of about 100 bbls, at 5 75. Buyers are generally offering 5 69, and holders offer to sell freely at 5 75. The exports from the 1st to the 14th are 776 bbls. Pots and 49 bbls. Pearls.

COTTON.-The sales to-day, as far as we could learn. each about \$00 bales, principally to spinners. The stock being run very low, this may be considered a fair business. The small stock pressing on the market also tends to keep holders mere firm; still, offers have been accepted to-day which were previously refused. The import since the 1st inst, has been 5,855 bags. Export from the 1st to the 14th 3,735 bales. Export from the United States since the 1st inst. 5,065 bales; same time last year, 6,704; same time year before, 9,455.

large, and principally of Genesee. The demand has been rather better to-day, but the market has not been fully sutained. We noticed sales of about 3,000 to 3,500 bbls., inciuding some 1,500 bbls, tair brands Genesee at 4 564. Most solders endeavor to obtain 4 621, and probably the bulk of the sales have been at that rate. Ohio flat has sold at 4 56; and some extra brands at 4 621 a 4 69; round hoop 4 50, for the British Provinces. Good Michigan sells at the same rate as Genesee, being sometimes preferred at the same price to that description. The supplies of Michigan are ight. We quote Genesee 4 561 a 4 621; Ohio flat 4 561 : hat in question, of as one quality, and in as elegant style, 4 62; round 4 50; Troy 4 50 4 56; Michigan 456; a 4 62]. The demand to-day has taken nearly all affoat, mostly to the Eastern markets. In Southern we hear of only a few sales: Georgetown at 4 624 for new, and 5 25 for old -Brandy wine is held at \$5, but we believe there is none here. In addition to the 200 bbls. Richmond City reported some days since, 300 bbis. 'Galago' sold at \$6. New-York Mills is selling in small lots at 462\frac{1}{2}. Of other descriptions of Southern we believe the market is bare. There is a good supply of Rye Flour and Corn Meal. We notice sales of 350 bbls, of the former, North River, at \$3. Com Meal is at 2 75 a \$3. Export of Wheat Flour from the 1st to the 14th September, 16,702 bbls.

GRAIN.-We have heard of no sales of Wheat to-day, and we know of but one lot on the market, a parcel of Ohio Canal held at 92c. The last sales of Genesee were at 83 a 90c; Ohio Canal 85 a 90; Illinois 90 a 92; Southern 77 a 80. There is some demand, but it is not active. In Corn there is to-day not much doing. We notice sales of 1,000 bushels Maryland Yellow at 55c, measure, for the East; 1,600 do heated for distilling, at 50c, delivered; and 500 do. North River at 58 a 59c. Rye is not in very good demand; the supply is very light. About 800 bushe's, we believe, all offering, was taken at 58c, delivered. No arrivals of Barley. Oats are without change. They are taken about as fast as received : Canal 30 a 32; new 30; River 28 a 30; new 25

PLASTER.-We notice a sale of a cargo of Lubec at \$2,

TEAS.-An auction sale of Teas per Horatio was had this morning. The company was fair, but there was not a very great degree of animation observed in the biddings.-The better grades of Teas sold at about previous rates, but only one parcel was sold at Soc, the rest withdrawn, that price not being offered for more. TO TAILORS .- One of the greatest DAVIS has discovered the true principle in the balancing and Dratting of Coats—which principle I have no doubt has been more studied than any other science, for all other sci ences have been confined to but lew compared with the housands of the trade that have turned their attention to discover this point, both here and in Europe for this fifty years. It is an entirely original and self-varying system, nothing complicated, no matter in what position the person stands. When you draft the Coat, it works out every point derfectly correct. This system has been thoroughly attested by a number of the trade for eighteen months in New-York. Any of the trade wishing to obtain a good rule for frafting Coats with an original improvement on Vests and other useful instructions in the general art of cutting, are solicited to call at 136 Fulton street, New-York, where they

He feels confident that his system must succeed, and there He feels confident that his system must succeed, and therfully submits it to the decision of a discerning public. To remove any impression that may be entertained that it is not genteel to attend a shilling exhibition, the Manager begs to observe that the price of admission is no criterion of its respectability; the way in which it is conducted, and the performances presented is the proper standard to judge by. In the principal cities on the continent of Europe the rates of admission to thearers, and other places of amusement, is fifty per cent, cheaper than in England. All classes of society assemble—the highest and the lowest—the moderate charge placing it in the power of the latter—yet or one attempts to dispute the respectability of the per-formance. In the public gardens of Paris there is no price if a place of public amusement is conducted with propriety and disreputable characters excluded, that families of th

first respectability may attend with as great a degree of safetyas if the price of admission were tentimes the amount. The Manager trusts that the following names will be a ufficient guarantee of his intermons:—
